

Invitation to participate in a half-day online workshop on antisemitism on 8th of June or antigypsyism and other types of hate on 10th of June 2020

The project consortium of the EU-funded project [Re-ACT!](#) would like to invite you to participate in an online workshop on online antigypsyism and antisemitism to identify the needs for your activities to address these and other forms of online hate.

Analysis of hate data collected by members of the International Network Against Cyber Hate, INACH, in Europe has shown that there are strong and documented links between current online hate phenomena and hate-slurs, prejudices and practices that have been propagated in the Third Reich.

To transform these worrisome findings into effective warnings, especially since remembrance and knowledge on the Holocaust and its horrors are fading, the project **Remember and ACT! (Re-ACT)** is putting a special focus on researching how “old” concepts of antisemitism and antigypsyism are being re-enacted by concerted hate campaigns and where they originated from. Starting from there, Re-ACT will develop, collect and provide educational materials and tools for the prevention of racism, xenophobia, homophobia and other forms of intolerance.

These self-generated sets of information plus a curated collection of high-quality educational materials will build the foundation for the establishment of an online prevention-hub at INACH.

We turn to you as historical experts, experts on antisemitism, antigypsyism and anti-discrimination, as educators, youth workers, human rights CSO/NGO staff and activists, social workers, policy makers, digital activists and IT social entrepreneurs.

Your active involvement will not only help us to identify your needs, but also provide you with the opportunity to contribute to the criteria and design of materials and the online prevention-hub we are about to create.

Collaborating with you will be very valuable and crucial for the success of the project!

You will find more information on project Re-ACT at our [website](#) and sign-up for our newsletter here: <https://react.inach.net/get-involved/>
